

Dear School Administrators, Principals, and Teachers:

Exciting News! Midway Education Department has three New Distance Learning Modules available for you!

Visiting the USS Midway Museum located on San Diego bay may have seemed like a long field trip in the past, but we can now bring the USS Midway Museum to you with Live Broadcasts from our Flight Deck. Now is the time to register for a virtual visit with your classroom or remote learners.

Thanks to generous support by our Corporate Sponsor, Qualcomm, we can offer these modules at *no cost* to visiting classrooms that make a reservation for the spring of 2021.

Distance Learning Modules are:

2nd Grade Social Studies: **Everyday Heroes**

3rd Grade Social Studies: **Communities, a City at Sea**

4th–5th Grades: Math: **STEAM Mobile Device Tour**

Go to <https://www.midway.org/education/school-youth/dist...> for all the information regarding the contents of the modules and the reservation request form. You may also call our office directly. Please share this information with any grade level appropriate teachers in your district.

We look forward to hearing from you.
